

THEMES & THOUGHT-PROMPTS  
FOR THE  
Seasons of the Zodiac

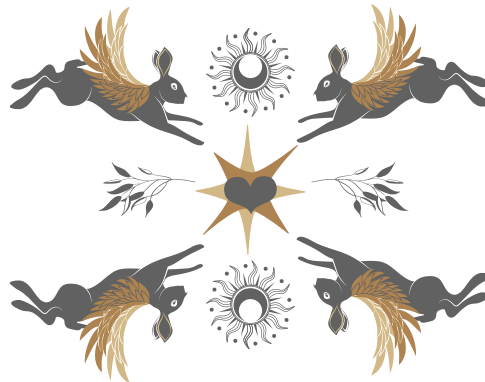

# Welcome to 2023!

We recognize that technically, this little guide should start in Aries, but we were sooo excited to get started – we couldn't wait until springtime.

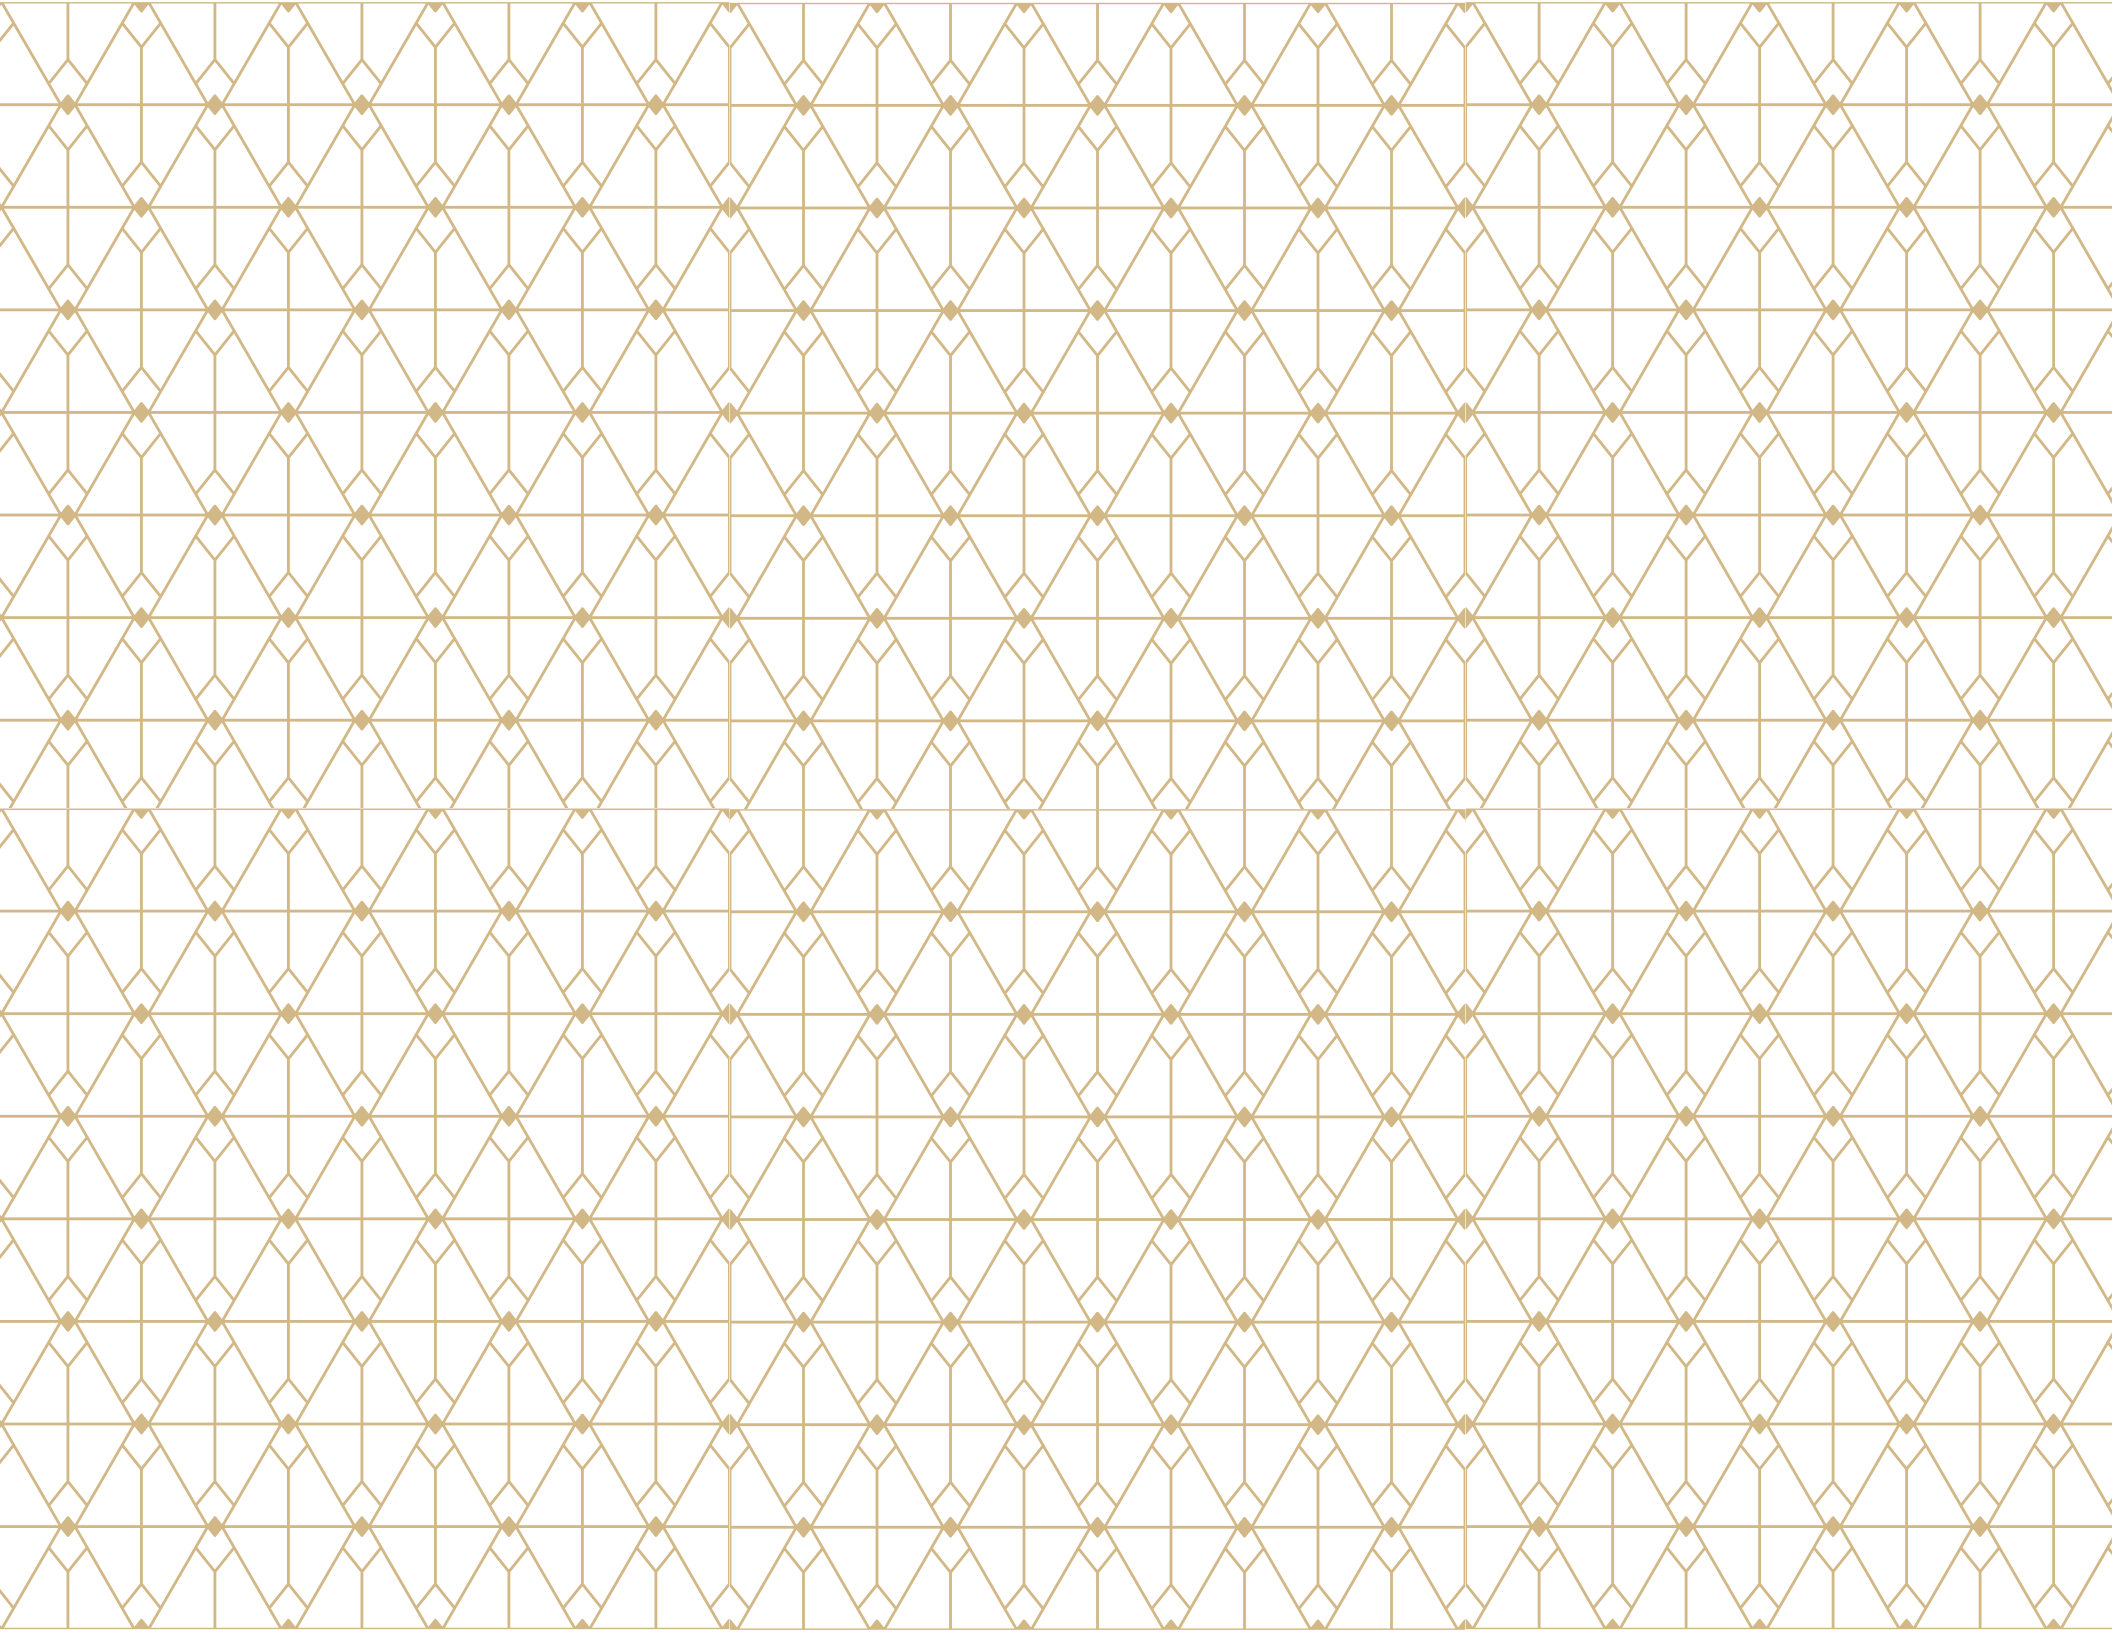

It's our hope that the prompts in this guide will be a companion to your fresh goals, your resolutions, your aspirations, and even your renewed gym membership. Thinking about the archetypes and themes of each zodiacal season provides essential insights while also illustrating the best times for initiating and undertaking certain tasks and activities.

Divination for each season can provide added guidance as you set goals and explore all the wonderful new opportunities the year has to offer you. It can also help you to see the areas of your life that need clearing out. We've included Tarot and runes as the divination methods, but feel free to use whatever tools you feel most aligned with.

Finally, reflection is the most natural way of synthesizing the lessons of each season, so we've also included an area for your end-of-season reflections.

# This year is going to be magical!
